<u>How to</u>

Normal User

Finding resources using labels

1. Go to the resources tab, and select resource finder.
2. Select the appropriate labels and then click submit.
3. You will see a list of all the files uploaded under that label.
4. Click on the download button to start downloading a particular file.

Finding resources using search

1. Go to the resources tab, and select all resources.
2. Enter the name of the file you're looking for and hit enter(It will search all files whose names contains the given substring). Eg: If you're looking for books on thermodynamics, typing "thermo" and hitting enter should do the job.
3. You will see a list of all the relevant files.
4. Click on the download button to start downloading a particular file.
